

Western australia solar battery rebate

Overview

The WA Government's battery rebate scheme launches by July 2025, offering up to \$7,500 in rebates and \$10,000 interest-free loans for eligible households. Learn how to apply & who's eligible.

The WA Government's battery rebate scheme launches by July 2025, offering up to \$7,500 in rebates and \$10,000 interest-free loans for eligible households. Learn how to apply & who's eligible.

The WA Residential Battery Scheme allows you to access a rebate and/or a no-interest loan to purchase and install a battery to power your home. The WA Government's scheme is in addition to the Federal Government's Cheaper Home Batteries Program. On a 10kWh battery applicants are eligible for a.

For Synergy customers: \$130 per kilowatt-hour of usable battery capacity up to 10 kWh – max rebate \$1,300. For Horizon Power customers: \$380 per kilowatt-hour of usable battery capacity up to 10 kWh – max rebate \$3,800. Read more about installing solar and batteries in regional WA here. The federal.

Three solar battery rebate levels apply in Western Australia: Federal, state and manufacturer rebates. Use this guide to determine what solar battery rebates are available and the likelihood of additional battery rebates. 1. Federal 2. State 3. Manufacturer Battery rebates exist to stimulate the.

The WA Government's Battery Rebate Scheme is now officially open. Eligible households can access up to \$3,800 in rebates and \$10,000 interest-free loans to install home batteries, helping reduce power bills and strengthen WA's electricity grid. Note: There are only 100,000 rebates available and you.

Thanks to the WA Government's Solar Battery Rebate, homeowners can now offset a decent chunk of the upfront cost — making solar and storage more affordable than ever. But like most government programs, the details can get a little confusing. So let's break it down properly: who's eligible, how it.

The good news is the WA Government is offering a massive rebate and an

interest-free loan to make solar batteries way more affordable for local households. You could score up to \$7,500 back on your battery install, and if you're eligible, get up to \$10,000 with zero interest to help cover the rest. Does WA have a solar battery rebate?

The WA Government has announced a solar battery rebate offering a \$5,000 subsidy for residential batteries from 1 July 2025. Here's what we know so far.

What is the WA Government's Battery rebate scheme?

With degrees in business technology, science, and marketing, James combines in-depth market insights with technical knowledge, positioning him as a trusted authority in renewable energy. The WA Government's battery rebate scheme launches by July 2025, offering up to \$7,500 in rebates and \$10,000 interest-free loans for eligible households.

What solar rebates are available in Western Australia?

The local battery rebates are only available with select installers as part of the Switch Your Thinking initiative. Another incentive available to solar system owners in Western Australia is the solar feed-in tariff. Unlike the rebate, feed-in tariffs are an ongoing incentive available through the Distributed Energy Buyback Scheme (DEBS).

Can you get a rebate if you install a solar battery?

In a push to boost renewable energy and ease pressure on the electricity grid, the WA Government has rolled out a rebate for eligible households that install a solar battery. Depending on your situation, you could pocket thousands in savings — making it much easier to future-proof your home against rising energy bills and blackouts.

Which batteries are eligible for the WA battery rebate?

The WA Government hasn't given details on which batteries will be eligible. What we do know is batteries must have at least 5 kWh capacity and be Virtual Power Plant (VPP) ready – as recipients will need to join a VPP to receive the rebate. You can also get the rebate for a new battery if you already have one.

Should you install a solar battery in Western Australia?

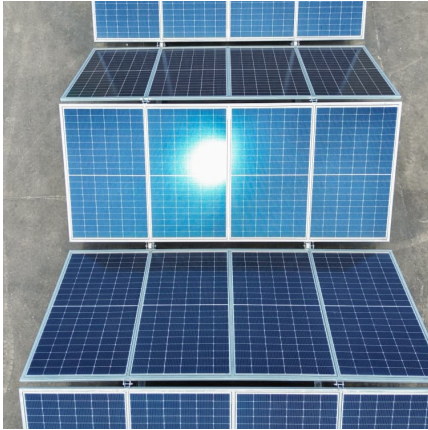

If you've been thinking about installing a solar battery in Western Australia,

there's never been a better time to make the move. Thanks to the WA Government's Solar Battery Rebate, homeowners can now offset a decent chunk of the upfront cost — making solar and storage more affordable than ever.
