## Overview

---

Let's face it—when you think of energy innovation, Iraq might not be the first country that comes to mind. But hold onto your solar panels, folks. With 300+ days of blistering sunshine annually [6], Iraq's local energy storage battery sector is heating up faster than shawarma on a Baghdad food cart.

CHISAGE ESS is headquartered in Ningbo and relies on mature energy storage technology and professional research and development team led by doctors from home and abroad to actively expand its energy storage business and services. The company invests in its own battery pack and inverter factory with.

To meet the specific needs of the Iraqi market, GSL ENERGY offers internationally certified lithium solar battery solutions that feature ultra-long cycle life and are engineered for optimal performance in Iraq's diverse climate, ranging from arid deserts to mountainous regions. These systems ensure.

We are excited to announce that Nenghui Energy has successfully deployed and operated a 330kW/763kWh energy storage system in Iraq for over six months—making us one of the earliest and most experienced providers in the country's commercial and industrial (C&I) energy storage market! Our.
