

# **Where is the nuku alofa pumped hydro energy storage station**

## Overview

---

The following page lists all power stations that are larger than 1,000 in installed generating capacity, which are currently operational or under construction. Those power stations that are smaller than 1,000 MW, and those that are decommissioned or only at a planning/proposal stage may be found in regional lists, listed at the end of the page.

Discover the Tonga renewable energy project based on storage technology, located in Nuku'alofa, Tonga, in the South Pacific Ocean.

The two battery storage facilities installed in Tonga are complementary: the aim of the first 5 MWh / 10 MW battery is to improve the electricity grid's stability (regulating the voltage and frequency), while the second 23 MWh / 7 MW battery is designed to transfer the electrical load in order to.
