

Winning bidder for polandsa wind and solar energy storage project

Overview

Greenvolt Group, through Greenvolt Power, a subsidiary responsible for global development, construction, and operation of utility-scale wind, solar, and energy storage projects, was the top winner in the Polish capacity auction held in December 2023. How many solar projects were approved in Poland in December?

Poland's URE has shared the results of seven renewables auctions that took place in December. An auction for solar and wind installations greater than 1 MW received 172 solar bids and two onshore wind bids. It approved 126 solar projects totaling around 1,481 MW and the two wind projects totaling 90.8 MW.

How much solar power does Poland have?

Figures from URE show that since Poland's renewables auctions began in 2016, more than 274 TWh of electricity worth almost PLN 67 billion has been contracted, with the vast majority covering newly designed installations. Poland added around 4.6 GW of solar in 2023, taking its cumulative installed capacity beyond 17 GW.

What is the minimum price for solar & wind?

The minimum price for solar agreed under the auction was PLN 244.80 (\$59.67)/MWh compared to a maximum price of PLN 334.77/MWh, against a reference price of PLN 389/MWh. The minimum price for wind agreed was PLN 149/MWh compared to a maximum price of PLN 175/MWh, against a reference price of PLN 324/MWh.
